PROFESSIONAL SUMMARY

Product Manager with 7+ years of experience leading end-to-end product delivery for AI-powered healthcare platforms, from roadmap and requirements definition through deployment and adoption. As a founding-team Product Manager at an AI startup, owned the full product lifecycle for multiple AI clinical products (AI Scribe, Clinical Summaries, Discharge Summaries, Readmission Workflows) writing PRDs, prioritizing and coordinating cross-functional delivery across engineering, clinical, and operations teams. Hands-on exposure to vibe coding, workflow builders, automation tools, and agent/copilot-style products, with experience in prompt engineering and building, testing, supporting, and refining agents, copilots, and AI-enabled workflows. Skilled at translating complex stakeholder needs (CXOs, clinicians, ops leaders) into scalable product requirements, driving pilots to production, and managing multi-stakeholder rollouts. Strong track record of project ownership, process design, and cross-functional leadership in fast-paced, ambiguous 0→1 environments.

CORE COMPETENCIES

- | | |
|--|--------------------------------------|
| ◆ AI Product Management | ◆ Product Roadmaps & PRDs |
| ◆ Agile/Scrum Delivery & Sprint Planning | ◆ Cross-functional Team Leadership |
| ◆ Feature Prioritization | ◆ Stakeholder & Executive Management |
| ◆ End-to-End Project Management | ◆ AI Platform Deployment & Adoption |
| ◆ Requirements Gathering & Solution Design | ◆ Client Onboarding & Implementation |
| ◆ Go-to-Market Strategy & Execution | ◆ Process Design & Improvement |

PROFESSIONAL EXPERIENCE

Product Manager (Founding Team)Feb 2023 – Apr 2026

Wellytics Technologies Pvt ltd · Hyderabad

- Owned end-to-end product management for AI clinical platforms (AI Scribe, Clinical Summaries, Discharge Summaries, Readmission Workflows) as a founding-team member, working directly with founders in a 0→1 startup environment.
- Defined product roadmaps and wrote PRDs, translating clinical and operational requirements from CXOs, clinicians, and hospital ops teams into prioritized feature backlogs.
- Ran Agile sprint planning and delivery cycles with engineering and data science teams, managing scope, timelines, and release readiness for AI product features.
- Led product deployment across hospital ICUs and multi-department accounts, converting pilots into long-term production rollouts through structured onboarding and change management.
- Served as primary product owner interface with senior stakeholders gathering feedback, resolving delivery issues, and driving continuous product iteration based on real-world clinical usage.
- Drove product strategy, pricing, and positioning input for GTM; identified expansion opportunities based on usage data and client needs.
- Built core product artifacts (PRDs, onboarding docs, release notes) and mentored junior team members on product and delivery workflows.

Scientific Affairs Manager Sep 2022 – Jan 2023

Redcliffe Genetics (Redcliffe Labs) · Hyderabad

- Coordinated cross-functional delivery across scientific, clinical, and commercial teams to meet product and compliance requirements on schedule.
- Gathered requirements from healthcare providers and diagnostic centers to ensure accurate, compliant, and clinically relevant solution delivery.
- Supported solution positioning and pre-launch engagement with clinicians, contributing to market-facing product initiatives.

Territory Manager Apr 2019 – Sep 2022

LifeCell International Pvt. Ltd. · Hyderabad

- Managed full account and delivery lifecycle across a territory of hospitals, clinicians, and diagnostic centers — from requirements gathering and proposal through implementation and retention.
- Coordinated stakeholder engagement programs and reported delivery performance metrics to senior leadership.
- Promoted from BDM to Territory Manager within 3 years on the strength of ownership, stakeholder management, and delivery results.

Clinical Intern 2018

Kamineni Hospitals & Owaisi Hospital · Hyderabad

- Hands-on internship in genetic counselling, lab operations, and stem cell research; developed core domain knowledge in clinical and diagnostic environments that now informs product decisions in healthcare AI.

KEY PRODUCT & DELIVERY IMPACT

- Built core AI product offerings from scratch at a healthcare AI startup — defining requirements, roadmap, and go-to-market for early product releases.
- Converted multiple pilot engagements into long-term production deployments by driving structured rollout, adoption, and feedback loops.
- Managed multi-stakeholder AI platform rollouts across single-department pilots to multi-ICU deployments, balancing clinical, technical, and business requirements.
- Maintained product delivery pipeline and reporting to support planning and prioritization decisions for leadership.

EDUCATION

B.Tech – Genetic Engineering 2014 – 2018

SRM Institute of Science & Technology (SRM IST), Chennai

SKILLS

Category	Skills
Product Management	Product Strategy · Roadmaps · PRDs · Feature Prioritization · Agile/Scrum · Sprint Planning · End-to-End Product Lifecycle
AI/Healthcare Delivery	AI Platform Deployment · Clinical Workflow Design · Pilot-to-Production Rollout · Adoption
Stakeholder & Client Management	Executive Engagement · Requirements Gathering · Onboarding & Implementation · Client Health Monitoring
Project & Account Delivery	Cross-functional Coordination · Pipeline & Tracking · Process Design · Solution Design & Proposals
Business	Go-to-Market Execution · Competitive Analysis · Market Research · Revenue Growth
Tools	Ai Tools · IDE Tools · Microsoft Office Suite (Word, Excel, PowerPoint) · Healthcare AI Platforms · Clinical Documentation Tools
